## **COURSE SYLLABUS:**

### **Active Shooter Response Protocols**

#### **Course Location:**

This is a virtual course, offered online only and available to registered users of the Officer Virtual Academy at all times.

#### **Instructor Information:**

Lt. Frank Borelli - LE Instructor / Editorial Director

With over 35 years of operational experience and more than 30 years of instructional experience, Lt. Borelli has taught programs involving firearms, defensive tactics, officer survival, active shooter response and more to officers from all levels of government to include city, county, state, federal and military. He remains active in law enforcement, continually training and being trained to keep his skills up to date and sharp.

#### **Course Description:**

This course of instruction reviews some historical active shooter events and how law enforcement response has evolved as a result. Opening with a discussion of definitions, the program moves through common basic response protocols, necessary equipment, lessons learned and more. There is an examination of past active shooter ages and the emotional trauma law enforcement can experience as a result of dutiful response. Finally, the course discusses response variations dependent on manpower and what the transition may be to delivering care after the threat is neutralized.

#### **Prerequisites:**

There are no prerequisites for attending this program.

#### **Course Sequencing:**

This course is a personal-knowledge-only (no continuing education or in-service credits) program. It is recommended that the student officer view/attend the following courses before viewing this one:
