

EYE PROTECTION

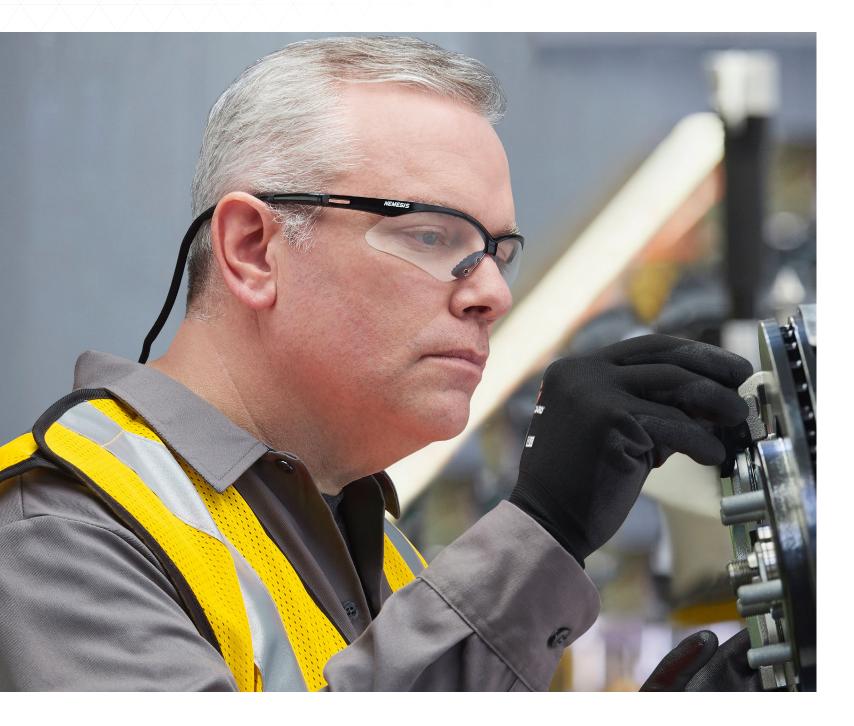

Designed with the wearer's needs and style in mind, the KleenGuard™ Brand offers a wide selection of eye protection.

Our human-centric engineering enables rather than inhibits — allowing for maximum productivity and safety.

Our portfolio includes the Smith & Wesson® line, which utilizes wraparound designs to ensure excellent peripheral protection, combined with comfortable three-point fit construction. Wear them at work, the shooting range or in the field.

And we also offer something that our competitors do not: a way to divert used PPE from the landfill through The RightCycle™ Program.

Turn to KleenGuard™ and Smith & Wesson® solutions to enhance safety, compliance and sustainability in your workplace.

Symbols Key

Meets the optical requirements of ANSI/ISEA Z87.1-2020

Meets the optical requirements of ANSI/ISEA Z87.1-2020 for dust protection

Number denotes the base curve

of the eye protection; a higher base curve provides more wraparound protection and peripheral vision, and can reduce the need for side shields

Product features U6 rated lenses

Meets the optical requirements of ANSI/ISEA Z87.1-2020 for fine dust

Product complies with the Trade Agreements Act

Look for this symbol to see which products are eligible for recycling with The RightCycleTM Program

Meets the impact protector requirements of ANSI/ISEA Z87.1-2020

EYE PROTECTION

KleenGuard™ Eye Protection offers a wide range of individually bagged safety eye protection that provides comfort and durability with a variety of styles that maximize productivity and safety. See the charts below to determine the right eyewear for your workplace and application.

Maverick™ Safety Glasses

Don't underestimate the power of style. Your workers need protection, but they also care how they look. Maverick™ Eye Protection, the first eyewear created for the KleenGuard™ Brand, delivers confident protection without compromising style or comfort. It's PPE that workers will want to wear. With MaverickTM Eye Protection, compliance has never looked so good.

FEATURES

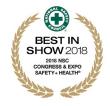

Passes the EN166 "N" mark test for resistance to fogging and EN166 "K" mark test for resistance to surface damage by fine particles. (49309, 49311, and 49301 only)

Integrated **browguard** and **side shields** help the user feel confident they are protected

With premium KleenVision™ anti-fog and anti-scratch performance

Reduce eye strain and fatigue with anti-glare coating (49312 only)

KLEENGUARD™ EYE PROTECTION STANDARD SAFETY GLASSES

Nemesis™ Safety Glasses

There's a reason why Nemesis $^{\scriptscriptstyle{\text{TM}}}$ Eye Protection is one of the top-selling brands in North America and the most popular line in the KleenGuard™ Eye Protection portfolio.

Make that several reasons: comfort, style, durability, and a range of options to address individual needs. They all affect how workers look and feel when wearing PPE — potentially tipping the scale between protection and injury. Why take a chance on anything else?

FEATURES

- · Lightweight, wraparound design provides clear peripheral vision
- Hard-coated lenses for scratch resistance and longer life

TIP Enhance protection and comfort with the complementing Foam Gasket Accessory (see p. 14).

- Variety of frame colors to express individuality and help drive compliance
- Wide choice of lens options to help reduce eye fatigue

FITTING INSTRUCTIONS

How to attach the foam gasket from KleenGuard™ Nemesis™ Eye Protection

Align the nose pad of the foam gasket with the NemesisTM Eye Protection frame.

Press the center of the frame. You will hear a clicking sound. That signals that the gasket is in place.

Hook the lenses under the gasket.

Then attach the hook to the temple.

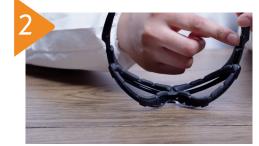

Last, please check that all hooks are safely and securely inserted.

How to detach the foam gasket from KleenGuard™ Nemesis™ Eye Protection

Unhook it from the temple.

The foam will separate from the eye protection frame.

SMITH & WESSON® EYE PROTECTION STANDARD SAFETY GLASSES

Smith & Wesson®

SMITH & WESSON® Safety Glasses

Smith & Wesson® understands how a safety glass should fit the face to afford proper protection, stability and comfort. These safety glasses utilize wraparound designs to ensure excellent peripheral protection, combined with comfortable three-point fit construction. Once you try on a pair of Smith & Wesson® Safety Glasses, you'll see and feel the difference. Wear them at work, the shooting range or in the field.

All Smith & Wesson® Safety Glasses meet the optical requirements of ANSI/ISEA Z87.1-2020 and feature precision cut, polycarbonate lenses for reduced distortion and 99.9% protection from harmful UV light.

Smith & Wesson® Elite™ Safety Glasses

FEATURES

Every pair comes with a **carrying pouch** that can double as a lens cleaning solution

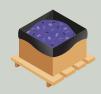

What is THE RIGHTCYCLE™ PROGRAM?

The RightCycle™ Program is the first large-scale recycling program for non-hazardous* lab, cleanroom and industrial waste. Since 2011, we've helped more than 1,000 customers divert 5.5 million pounds of waste. We can do the same for you by turning your used PPE into patio furniture and other useful products.

OVER 5.5 MILLION POUNDS

and counting waste diverted since 2011

Apparel items, eyewear, respirators and nitrile gloves are worn in your facility.

Used products are collected and shipped to our recycling centers. Used products are sorted and processed into plastic pellets.

Materials are molded into new plastic products and durable goods.

For more information, visit The RightCycle™ Program: www.ansell.com/us/en/rightcycle

Look for this symbol to see which products are eligible for recycling

*Non-hazardous waste as classified by federal, state and local regulations ("Non-Hazardous Waste").
